PROMOTE YOUR CONTENT WITH TUBE.BIZ

# YouTube Video promotion

**We promote your videos on social networks and via Google ads.**

Your video is shown in video pre-rolls before the main content. Users watch videoads at least for 5 seconds. After they can close it, or go to your YouTube channel. Therefore they can engage with your videos: like it, comment and subscribe to your channel.

# Why online video promotion is important?

If your business isn't already using display video marketing, you should get on board this year. Researches show that video ads increase brand awareness and sales, even if the video ad hasn't been watched till the end.

**3 out of 10 people choose to learn more details about the product after watching video ad**

# 6 out of 10 people would rather watch online videos than television.

Traditional TV is losing younger viewers, while Social Media platforms and streaming services are gaining more popularity than ever.

Advertisers who haven't yet embraced online video advertising are missing out. Adapting to the new standards is important for companies that don't want to fall behind and lose their audiences to other brands.
